Ambrose of this village and was with the 310 Engineers A. E. F. in Russia and was in service 22 months being of first contingent that entered Camp Custer Sept. 19, 1917. He spent ten months in Russia and does not purpose to go back, in fact we have yet to see a Russia Campaigner who would go under any circumstances.

We have interviewed several boys from Russia and we have yet to find one who has even a good word for the country. It may be a nice place, but it was never made for Americans.
