Miss Henson attended a Convention of H. S. Principals last Thursday and Friday at Lansing.

We were entertained by three old maids last Friday afternoon, otherwise known as Helen Woodard, Dorothy Warner and Vera Loveland. A piano duet was given by Wilma Bell Kamiensky and Helen Millard. Neil McLaughlin gave us a piano solo and responded to an encore.

This program was held under the auspices of the Literary Society.

Miss Henson was met with hearty applause Tuesday morning when she announced we would have two weeks Christmas vacation.

Be sure and see all the Basket

Ball Games this year for they going to be peppy ones.

Basket Ball practice is well under way and a good schedule of games has been arranged. The first game is with the Olivet team at Olivet, Dec. 18.

We have several veteran Basket Ball boys out as well as girls. The boys being Von Northrup, Charles Lumbert, Neil McLaughlin. Prospects are bright for a winning girls team this year.

The girls quickly caught the spirit of B. Ball and are getting a good work out every night. The team is fortunate in having Helen Woodard, Margaret Schram, Delilah Ward and Vera Loveland; Margaret Schram and Delilah Ward being both two letter girls. Ruth Wheaton a Freshman of V. H. S. is filling the position of jumping center very nicely. Mary Margaret Hawkins is the sixth player on the team and does some excellent team work. Other girls who are working for places on the team are guards—Gertrude Boyd, Helen Millard, Ruby Gehman; Forwards—Bethel Root, Doris French; Jumping Center—Vera French; Running Center—Hilda French.

While Glenn A. Lake of Charlotte was driving north on Main st., one of the rear wheels of his automobile came off.

The car was going about 10 miles an hour but the wheel gained momentum as it went along by itself. It ran between two cars on the east side of the street, hopped the curb, went up to the front door of the former Mitchell & Clemons store, struck the door post and bounded back into a large plate glass window, smashing it to bits. The window has a replacement value of \$128.
