

We played our first 1927 game with Bellevue Friday, night and both teams won.

The girls game was very one-sided and for a long time it looked as though their girls would have to go home without having made a single score. However, towards the last of the game they did better and finally succeeded in making 4 scores. The final score was 20-4.

Our boys played the best game yet. They surely worked hard to win. Of course they knew we were expecting them to do it. They certainly are improving with every game. The final score was 20-8.
