

Sadie E. Hams was born at Hastings, Michigan, January 15, 1861, the younger of two children of Alfred J. and Mary S. Hams. At the age of two, her mother passed away and she was taken into the home of her Aunt Sarah and Uncle William. Here she was cared for until the age of thirteen, when she began earning her own way in the world.

On November 30, 1887 she was united in marriage to Eldora D. Lake of Vermontville to which union was born one son, Glenn A. Lake.

Since her marriage she has lived in and around Vermontville until she departed this life on March 18, 1929, following a severe attack of the Flu and its after effects.

She united with the Congregational Church about thirty years ago and has been an active and devoted member to the last, placing her trust in her Divine Father at all times, and ever ready and anxious to assist in the furtherance of family and community interests. She served one year as president of the Ladies Christian Association and in the past thirty years has never missed serving with her regular supper committee until last January when illness prevented.

She became a member of Evening Star Chapter No. 342 Order of Eastern Star many years ago and was a most loyal and earnest helper in all of its activities. For the past 17 years she held a station in the chapter and always felt a keen responsibility toward her share in the accomplishments of the Order.

She leaves to mourn their loss her husband and son, her daughter-in-law, Beulah E., and grandchildren, Glenna Marie and Douglas Edward, besides many other relatives and a host of loving friends.

As such a life returns to the Source of All Life, it is not without the knowledge of those remaining that the world was made better by her radiant kindness and affection toward all, her love and devotion to her family, and her many years of self sacrifice and ungrudging service for others. As time goes on her earthly life will be disseminated and magnified by those with whom she came in contact, and the establishment of a Universal Brotherhood of Man and the Kingdom of Heaven on Earth will have been materially advanced.
