

It's always so fun for me to look back in my camera and find pics from when Seniors were in junior high Science. You guys have come a long way! As you go out into the 'real world', remember all of your Science Team memories and carry those experiences with you. Always listen to others and work together to reach common goals. Be patient with others and be ready to lend a helping hand....it might be you who needs one next. Celebrate others successes, and lend comfort through disappointments. Respect others and treat people how you want to be treated. Find the positive every day. Laugh. A lot. And never use the 3 'S words'! Good luck in whatever you choose to do next. You got this.

Take care, Ms. Hoefler

There is no doubt that you will go do great things in this world. You have had so much thrown at you and you continue moving forward and finding the positive. Covid sucked and it took so much from you, there is so much negative around you but you managed to keep moving forward. Use that skill throughout your life. My challenge to you, is to go do great things that make this world better. If it needs to be fixed, fix it. If it needs to be changed, change it. If it's not good enough, make it better. You have fixed things here in the Valley. You have changed things here in the Valley. And, you have made things better here in the Valley. We will miss you and appreciate your efforts. Now, there is an entire world out there, go explore it, go attack it, go conquer it. go make it better. Enjoy the journey that is ahead of you and appreciate the things you face along the way. Lastly, remember where you came from. I know it doesn't always seem like it but this place we call "The Valley" is pretty special and has helped get you to this point. Don't forget that a piece of you will always be here. Don't be strangers.

"Goose I Love Ya"

-CARP

Dear Class of 2021,
Congratulations on making it. You have made us all proud of the way you pushed through this insane crazy year. If I were to give you any advice it would be to not forget where you came from. Everyone in the school and community loves to hear your success stories when you are out of school. Also be sure to follow your dreams. Try new things, explore new areas and meet new people. I wish all of you luck in your endeavors

Mr. Saari

Class of 2021,

You are the first class that I got to see completely through the Jr/Sr High School. You have taught me what it means to be "Valley." I am impressed that you always look out for each other, and I hope that you will continue to do that. You have some amazing people in your class that are leaving to do amazing things. You also have amazing classmates that will stick around Maple Valley and do amazing things. There are plenty of instances the past few years, where you have had to miss opportunities or to just miss each other. Please do not miss the opportunity to continue to look out for each other, no matter where they are. We all need a pick me up every once in a while. I feel that your class gave me a great pick me up the past few years. And, for that I will miss your class.

Wiebs

GOOD LUCK,
WE WISH YOU
THE BEST!
GO LIONS!!!
