

OUR VIRTUAL REALITY

Gaming becomes even bigger in quarantine culture

HOW MANY HOURS A DAY DO YOU SPEND GAMING?

FAVORITE GAMES

I love interactive games with competitive servers.

—Mackenzie, American Leadership Academy Gilbert North [AZ]

I aspire to go in to either law, law enforcement or investigation.

Among Us involves detective work to figure out who the “imposters” are. I love being a detective and investigating crime scenes in the game.

—Ashley, Cypress Lake High School [FL]

My favorite game is *Minecraft* because my friends and I bought a server so we could all play together.

—Amelia, Sacred Heart [MO]

My favorite game would have to be *Super Smash Bros* on the switch.

It’s an intense game that creates some competition in my friend group and although it can get frustrating, it’s also a way for us to just sit down and share some memories.

—Gerardo, Addison Trail High School [IL]
