

"We are a young team that keeps improving, especially after a rough start record-wise and lack of outdoor practice due to weather." - Coach Wieber

"This team has been one of the hardest working teams I have coached. They learned on the fly and came to the ballpark everyday wanting, and ready to get better. They were a close knit group that really came to pull for each other and the success of our team. They have fun playing the game and have an improved attitude about being able to win. I am proud of them and appreciate all they have put in to make this year a success." - Coach Carpenter
